

ASCE Eastern Branch Civil Engineer of the Year Award

The Civil Engineer of the Year Award is to recognize the top civil engineers in the ASCE Eastern Branch. It is presented to a civil engineer who has made outstanding professional contributions to his/her profession, public welfare, and the community at large.

Qualifications/Method of Selection:

The 2024 Awards Committee makes the selection of the recipient based on the following criteria:

- Registered as a Professional Engineer. (Active or Retired)
- Work is in the civil engineering or related field.
- Must live in the NC Eastern Branch jurisdiction. See <https://www.ascenc.org/easternabout> for more information.
- Professional Accomplishments, Memberships, and Awards
- Technical or Non-Technical Papers Authored, Patents, Presentations
- Professional Responsibilities and Service to the Profession
- Community or Civic Service

Complete Nomination Package: Nominations must include the following items:

- Resume with full professional experience or LinkedIn profile information
- Additional information may be included, such as newspaper clippings, company announcements, or other vital supporting information about candidate.

The nomination package must be submitted via email attachment (including supporting documentation to Pat Gilmartin at gilmartinpw@cdmsmith.com).

Deadline: All completed nomination packages must be received via email by **Friday, February 9th, 2024 at 5:00pm** to be considered.
